

DIDS BURY PIONEER

VOL. XXXII. No. 40.

DIDS BURY, ALBERTA, THURSDAY, OCTOBER 8, 1935

\$2.00 per year. 5 cents a copy.

New Grain Moving.

With threshing just nicely begun the movement of grain from the local elevators is getting nicely under way. Last week 15 cars of wheat were shipped and on Tuesday of this week nine cars were loaded.

In addition to the grain six cars of livestock were shipped last week.

Olds Jewelry Store Robbed

A number of diamond rings totaling \$650.00 in value were stolen by thieves who broke into the Short Brothers' jewelry store at Olds last Wednesday night, according to a report to the RCMP headquarters at Calgary.

Both the Shortt brothers, who operate the store, reside in rooms at the rear of the store, according to the report, and were asleep at the time of the robbery.

When the robbery was discovered no sign of the break-in could be found on the doors or windows of the store and it was presumed entry had been gained by the use of a pass key.

Popularity Contest Closes Next Week

Nine more days and the popularity contest which is being conducted by some of the merchants will be closed. The last day of the contest is Saturday, October 12th.

The list of leaders are not published the last two weeks, but from information we received the leaders are running very close and any one of them may be in first place when the final count is made.

If you are anxious for your favorite to win gather all the coupons possible during the next nine days.

Remember if you have not already paid your subscription to the Pioneer you can hand your favorite 3000 votes for every year's subscription paid.

All the coupons must be handed in before 6 p.m. on Tuesday, October 15th when the final count will be made.

WEEKLY SERMONETTE

"Your six days show you what your seventh means to you."

Canadian Legion Passes Resolutions

At a regular meeting of the Didsbury branch of the Canadian Legion held on Saturday evening, September 28, 1935, the following resolution was passed:

"WHEREAS the building on Eighth Avenue West in Calgary, which houses the Colonel Belcher Hospital for Returned Soldiers, is situated in the heart of the business section of the city, with street-car lines in front and a railway spur-line behind, and with no grounds for the relaxation and enjoyment of the patients, conditions which would not be tolerated in connection with any civilian hospital.

"AND WHEREAS there are apparently adequate public funds for the construction of Military Barracks, Police Barracks, Rock Gardens and other public works within the Province.

"AND WHEREAS it is now almost seventeen years since the end of the Great War, and the phrase "Lest We Forget" would appear to be becoming worn out and meaningless.

"NOW THEREFORE BE IT RESOLVED that the Didsbury Branch of the Canadian Legion, British Empire Service League, go on record as deplored the tragic delay in providing suitable premises for the proper and fitting accommodation of returned soldier patients, and that the Federal Government be strongly urged to take immediate steps to provide such premises."

The following resolutions were also endorsed, one to encourage the formation of a Boy Scout Troop in Didsbury, and the other dealing with the welfare of returned men in the Postal Services.

It was decided unanimously that the Branch sponsor wholeheartedly the showing of the picture, "Lest We Forget," at the local theatre on the 23rd and 24th October.

Nominations were received for the election of officers for the incoming year, and tentative proposals were discussed as to the celebration of the Armistice.

Harvest Festival at Anglican Church

The annual Harvest Festival Service will be held at St. Cyprians Church on Sunday next, October 6th. Holy Communion at 9:30 a.m. and Harvest Festival service at 3 p.m.

Didsbury Creamery Wins Many Awards

The Crystal Dairy have done their share this year in putting Didsbury to the front from one end of Canada to the other. They have had butter exhibits in all the principal fairs throughout the Dominion and have been successful in getting into the prize money in every place they have exhibited, and their winnings to date are as follows:

Brandon	1st Prize
Calgary	2nd prize
Edmonton	1st prize
Saskatoon	3rd prize
Regina	2nd prize
Vancouver	2 2nd and 1 3rd
Toronto Nat'l.	2 2nd and 1 3rd
Ottawa	2nd prize
London	2 1st and 1 2nd

They have still a number of samples that will be exhibited at winter conventions and fairs.

In entering these exhibitions the local creamery is competing against the best butter manufacturers in the whole Dominion, and the showing made is not only a great compliment to the butter makers, but also to the dairymen of the district for the quality of the cream they are producing.

WEDDINGS**WALKER—BISHOP**

A quiet but pretty wedding took place Monday evening, September 16th at the Knox United Church Manse, Drumheller, when Edna Emma, youngest daughter of Mr. and Mrs. A. Bishop, of Didsbury, was united in marriage to David Henry Walker, only son of Mr. and Mrs. A. Rothery, of Drumheller. Rev. H. D. Leitch officiated.

The bride looked charming in an English tweed travelling suit, tailored in a smart grey shade with black and grey accessories and wore a corsage of pink roses. Miss Edith Marsh of Midlandvale attended the bride and wore a beige crepe ensemble with brown accessories, with a corsage of yellow roses. Mr. James Donald attended the groom.

After the ceremony twenty guests sat down to supper at the home of the bride's sister, Mrs. F. R. Smith, of Midlandvale. The table was daintily decorated with asters and gladioli, the bride's table being centred with a three-tier wedding cake. The bride's sister greeted the guests and chose for the occasion a dress of black crepe.

Mr. and Mrs. Walker will reside in Drumheller.

BIRTHS

at Didsbury General Hospital

September 12th, to Mr. and Mrs. David Martin, a daughter, Freda Agnes.

September 16th, to Mr. and Mrs. Neils Schmidt, a daughter, Jewel Iris.

September 27th, to Mr. and Mrs. Erlig Erickson, a son, Robert Bruce.

September 30th, to Mr. and Mrs. Harry Wait, a son.

Democracy And Liberty

Liberty, says Mr. Stanley Baldwin, is rooted in the English character and fostered and maintained by institutions which also have grown out of that character. That liberty is embodied in the parliamentary system which is the result of the obstinate determination of the English people to manage, individually and nationally, their own affairs. Mr. Baldwin says that system has grown out of the common sense and good nature of the people, who prefer elections to street fighting, and talking shop to revolutionary tribunals. The English, above all other peoples, have made a success of democracy and that success has been planted in the Overseas Dominions. The reason for this is adduced by The London Times as being a refusal to "wear our fetters in our souls." That freedom is the breath of democracy which protects the people from domination by one side or the other through the expression of opinion in the ballot box. It is, as The Times says, "the translation into action of our instinctive determination to resist any form of tyranny that has from time to time preserved us."

Mr. Baldwin reiterates that the price of liberty is eternal vigilance, and the more so in a democracy which is the most difficult form of government, and, therefore, the most worthy of giving our lives to make it a success. Thus Great Britain has the monition that it is not enough to sit with folded arms and believe that she has the greatest Government in the world. Tyranny takes many forms. It is constantly raising its head. One way of propaganda it has devised is to constantly bemoan that democracy has failed. According to Mr. Baldwin, it is the form of government which has won more triumphs than any other, and, therefore, should be cherished and cultivated as in times past. Self-government, which is democracy, has maintained in developing forms in England for eight centuries. No one is going to be able to tear it from its roots, which are laid in the English character.

When we review the history of this North American continent, we find that the struggle for liberty and self-government is written large over its pages. The Pilgrim Fathers left the old world in order that they might enjoy that religious liberty denied to them at home. The original American colonies revolted because self-government was withheld from them, and taxation imposed on them without their consent. The American Civil War was a life and death struggle for liberty. One long fight followed another in pre-Confederation days to win liberty and the rights of responsible government in Canada.

In the earlier days of the world's history, liberty could only be gradually won through bloodshed and death on the battlefield. Today it can only be retained and expanded through democratic forms of government, and by stern resistance to all movements, however subtle and apparently innocent, which tend to restrict the liberties of the people, and of individuals who in the aggregate are the people and the State.

Why have the peoples of Great Britain, United States and Canada laid such stress on individual liberty, and been willing to sacrifice all else in order to achieve it? The answer is, of course, that liberty is the greatest thing in life, and without it life is not worth the living. A slave may enjoy health and security, but lacking his God-given right of liberty he is denied that which is supremely greater, contentment and happiness.

It is not to be forgotten, too, that it is only in those countries where full and free democratic forms of government exist that liberty remains the priceless possession of the people. Yet we find in certain countries, where the people became lax in defence of their liberties, those very democratic forms were first utilized by would-be dictators to later deprive them of their liberties. And all over North America today there are organized groups, employing the very liberty which democracy has conferred upon them, to overthrow and destroy democracy.

It is necessary, therefore, for all people who prize liberty to be on their guard and resist every attempt, however veiled it may be, which is designed to restrict the liberty of themselves or others in even the smallest degree. Liberty once lost may be extremely hard to win back again.

Holiday For Auto Horns

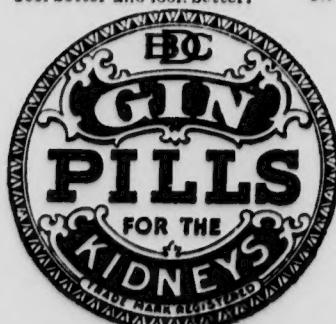

To make the life of pedestrians "a little more pleasant," Alderman Margaret McWilliams urged the blowing of automobile horns be prohibited for one or two months as an experiment in Winnipeg. The horn was more of a danger than a help, she told the civic traffic committee.

"And your age is?" asked the woman lawyer.

"About the same as yours," replied the woman witness.

Are You Tired—Listless?

Is your rest broken at night? If your kidneys need attention take Gin Pills. They will strengthen your kidneys and if you sleep better you will feel better and look better.

An Ideal Vacation

"Yes, sir, it was just about the ideal vacation. Nothing to do but loll around all day in comfortable chairs. No mosquitoes, no insects of any kind. Pleasant, smiling people on all sides. No big bills running up, no relatives, no sunburn."

"Just peace and quiet all day long. A thorough rest for the mind and body — the kind of vacation you've always dreamed about."

"Yes, sir, it was ideal. We certainly enjoyed that vacation the boss took."

From January to June, 1935, Canada exported 6,103,449 pounds of leaf tobacco, 5,792,961 pounds of which went to the United Kingdom; 238,400 pounds to British West Africa; 52,895 pounds to British West Indies; 11,680 pounds to Belgium, and 7,513 pounds to other foreign countries.

Husband (to wife who has just broken her glasses) — "You break everything that belongs to you!"

Wife — "I'm afraid you're right. Even you are a little cracked."

Old lady (to taxi-driver, who is still holding out his hand after receiving legal fare): "It's no use showing it to me, my man, I don't know a thing about palmistry."

Bendix Trophy Race

Chicago Air Mail Pilot Is Victorious In Contest

Benjamin O. Howard, Chicago air mail pilot, drove his white cabin plane "Mister Mulligan," through murky skies at Cleveland to victory in the Bendix trophy race, from Burbank Union air terminal, Los Angeles, to Cleveland.

While Howard was nosing out Col. Roscoe Turner in flying time less than a minute better than his rival's, the body of Cecil Allen, young Californian pilot, was taken from his crumpled plane at the scene of the race start.

Howard flew the 2,046 miles in eight hours, 33 minutes and 16.3 seconds. He was the first of the field arriving at the national air races.

FASHION FANCIES

A CAPE FOR DAYTIME AND ONE FOR EVENING IS INCLUDED IN TODAY'S PATTERN

By Ellen Worth

Capes and more capes — Paris is sponsoring this season for every time of the day.

The tailored model may be developed in quite a number of materials, such as tweedy woolens or tweedy cottons, gabardine, crepe silks, sheer crepes, crash linen, silk alpaca, heavy shantung, spongy cotton weave, etc., for day wear.

There is just a hint of the "Puritan" in the standing collar model that frames the face so flatteringly for more "dressy" wear. It's particularly nice in taffeta as originally planned.

They're so easily made — and at a big saving in cost.

Style No. 655 is designed for sizes small, medium and large. The medium size requires 2 yards of 39-inch material for cape with rolled collar; 2½ yards of 39-inch material for cape with standing collar.

Patterns 15¢ each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Autumn Fashion Book contains many more smart, cool vacation clothes. Send for your copy to-day, the price is 15 cents.

Butter Awards

Manitoba Captures Honors At Canadian National Exhibition

Manitoba creameries captured premier honors in the Canadian National Exhibition creamery butter contest, final results of which are announced. First prizes secured by the provinces were: Manitoba 42, Alberta 17, Ontario four, British Columbia two, Saskatchewan one.

The Winkler Creamery, Winkler, Man., was awarded the silver cup for the highest scoring exhibits at the exhibition. Silver medal winners for highest scoring sample of butter in each section included Central Alberta Dairy Pool, Alix, Alta.

Icebergs have been known to be from 200 to 300 feet above the sea level and to have an entire height of from 700 to 1,000 feet — the larger portion being below sea level.

Brighter Days Better Smokes

These brighter days are certainly worth celebrating — and wise "roll-your-owners" are doing it by getting back to Ogden's Fine Cut.

What a thrill it is to enjoy again the completely satisfying cigarettes that only Ogden's give — particularly when it costs so little to smoke the best! Of course, you'll be wise to use "Chantecleer" or "Vogue" papers.

52 Poker Hands, any numbers, now accepted, as a complete set.

OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

Japs Need More Room

Want Privilege Of Emigrating To British Territory

The Tokio newspaper Asahi predicted that Japan was about to make a strong bid for loosening of restrictions on the immigration of Japanese into British territory, notably Australia, New Zealand and Canada, and on importation of Japanese goods.

In forthcoming conversations with Sir Frederick Leith-Ross, who is to stop at Tokio on his way to China as a special economic envoy of the British government this month, the Japanese will make this request, the paper said.

Speaking Of Ancestors

An American was boasting to his Jewish friends of his distinguished ancestry.

"D'you know," he said proudly, "one of my ancestors signed the Declaration of Independence?"

"That's nothing," replied one of the Jews, unperturbed, "one of mine signed the Ten Commandments."

Small Number Naturalized

Great Britain admitted only 1,000 natives of other countries to citizenship in the last year. Russians headed the list, 223 being granted certificates, followed by Germany, 138; Poland, 73; Italy, 72.

A New Electric Lamp

Used Successfully In California To Attract And Kill Insects

A new electric lamp that attracts insect pests of field and orchard and then electrocutes them is in successful use in orchards, packing plants, slaughter houses and mushroom nurseries as the result of long experimentation by Prof. W. B. Herms of the University of California. The color of the light may be changed to the one most attractive to the insect pest. Around the light is a wire cage. Insects flying toward the light's glass coil are instantly electrocuted when they strike the wire cage. The head of the lamp contains transformers which supply electric power to the wire cage and to the lighted coil.

Regained Health By Exercise

Five years ago doctors told William Campbell of Vancouver he had only six months to live. He took physical culture lessons, won his battle with death and now is making a habit of saving others from the same fate. During one month he saved four persons from drowning in Vancouver waters.

Approximately 12,000 murders were committed in the United States during 1930. This is about 17 times the murder rate of England.

Firestone TIRES LEAD in PERFORMANCE RECORDS

Past performance is the best proof of tire quality. For 16 consecutive years Firestone Tires have been on the winning cars in the grueling 500 mile Indianapolis Speedway Race — which is equal to 40,000 miles of ordinary driving.

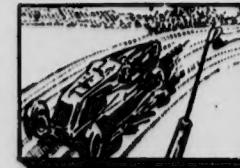

... that's PROOF of Firestone STAMINA

For 8 consecutive years Firestone Tires have been on the winning cars in the daring Pike's Peak climb with its 181 hairpin turns where a slip means death.

... that's PROOF of Firestone SAFETY

Firestone tires were on Ab. Jenkins' car at Lake Bonneville when he travelled 3000 miles at an average speed of 127.2 miles per hour without tire trouble to establish 77 world records.

... that's PROOF of Firestone ENDURANCE

The *Firestone* *High Speed* tire has been known to be from 200 to 300 feet above the sea level and to have an entire height of from 700 to 1,000 feet — the larger portion being below sea level.

Prairie Farm Rehabilitation Work Is Proceeding And Good Progress Reported

Encouraging progress is already reported by the Prairie Farm Rehabilitation Advisory Committee, of which Dr. E. S. Archibald, Director, Dominion Experimental Farms, is chairman. The work of the Committee in the Provinces of Manitoba, Saskatchewan and Alberta is designed to deal with the problems arising from drought in recent years and its twin brother, soil drifting, that have so seriously affected western agriculture and also industry and commerce generally throughout the Dominion. The Committee was established under the Prairie Farm Rehabilitation Act, the Act being sponsored by Hon. Robert Weir, Dominion Minister of Agriculture, and passed in April 1935, by the Dominion Parliament.

The plans of the Committee call for a number of phases of work to be undertaken such as the establishment of about 50 District Experiment Sub-Stations on farms of 640 acres each in the drought affected areas. On these farms or stations the methods which it is considered best to combat drought and soil drifting are being demonstrated by the owner of the farm under the direction of the Supervisor of Illustration Stations of the Dominion Experimental Farms.

The reclaiming of some sections of areas where soil drifting has been exceptionally severe is a major task in itself. This work is being directed by Dr. E. S. Hopkins, Dominion Field Husbandman. Large scale co-operative efforts by which groups of farmers will undertake strip farming, the planting of trees for shelter belts around farm homes, buildings and a paddock, are also being launched. It is hoped to have whole townships included in this co-operative scheme.

Another major phase of the Committee's work is water development. The Water Development Committee, a sub-committee of the Prairie Farm Rehabilitation Advisory Committee, has established its headquarters at Swift Current, Sask., and has its plans well under way. A total of 4,800 applications for assistance in connection with the construction of wells, dugouts, small dams and other means of conserving water, both for domestic and general use on the farm, have been received from farmers.

The Committee intends to do all that is possible to encourage farmers to adopt the best means of holding and conserving water. A staff of engineers is now engaged in surveying farms where water is urgently needed and preparing plans for the construction of dugouts and other media.

The work of tree planting for farmstead shelters, and the study of what influence trees have in connection with wind velocity, soil drifting and other factors is in charge of Norman M. Ross, Chief of the Division of Tree Planting, whose headquarters are at the Dominion Forestry Station, Indian Head, Sask., a unit of the Dominion Experimental Farms. He has been engaged in forestry work on the prairies for 35 years. Millions of trees are being supplied free to farmers from the forestry stations at Indian Head and Saskatoon, as they have been for many years.

A programme of research work having to do with the moisture content of soils in different areas is being carried out at the Laboratory of the Dominion Experimental Station, Swift Current.

Another important phase of the work is that of grass development. Dr. L. E. Kirk, Dominion Agrostologist, and his staff are making an exacting study of grasses such as Crested Wheat Grass, Western Rye Grass, Bromo Grass and other varieties to determine their suitability to resist soil drifting.

Dr. Archibald and his Committee are enlisting the co-operation of the provincial governments, the universities and farmers' organizations in order to get all possible information to do with soils and every other factor related to drought and soil drifting.

It has already been made evident to the Committee that if such work as is now being done had been un-

dertaken 20 years ago, the farmers would not have been facing the serious situation they are today and industries in the east, which depend to a considerable extent upon the prosperity of farming in the west, would not have been so hard hit in the last few years.

The administration and co-ordination of the different phases of the work now in progress are being carried on by Dr. Archibald from his office in Ottawa.

The Committee has \$750,000 to spend during the fiscal year 1935-36 and the Act prescribes that \$1,000,000 shall be voted in each of the next four fiscal years. In addition \$500,000 has been allotted this year for water development under the Public Works Act.

The members of the Prairie Farm Rehabilitation Advisory Committee are: two representatives of the Dominion Department of Agriculture, one representative of the grain growing farmers from the drought and soil drifting areas in each of the three Prairie Provinces; one representative of the Saskatchewan Live Stock Farmers and one representative of the Alberta Range Farmers from the drought areas and one representative from the Mortgage Companies of Canada; the Canadian Bankers' Association, the Canadian Pacific Railway, the Canadian National Railways, and one from each of the governments of the Provinces of Manitoba, Saskatchewan and Alberta.

The Act states the Committee is to consider and advise the Dominion Minister of Agriculture as to the best methods to be adopted to secure the rehabilitation of the drought and soil drifting areas in the Prairie Provinces and to develop and promote within those areas systems of farm practice, tree culture and water supply that will afford greater economic security.

The members of the Committee receive no pay, but are allowed reasonable travelling expenses.

May Own Oil Lands

Oilmen Think Unlocated Pool May Be On Prince's Ranch

The Prince of Wales, who during a visit to Calgary, defined for westerners the difference between a "ranch" and a "rawnech" may find himself the owner of rich Southern Alberta oil lands.

His royal highness' "E.P." ranch, in the foothills of the Pekisko district, may hold the secret of the long sought crude oil pool in Alberta. Oilmen speculated on this possibility Friday as drilling continued on a Pekisko well, a half mile from the royal ranch.

The unlocated pool, long sought by drillers, is held by oilmen to be the source of the flow which has poured millions of gallons of naphtha into the Turner Valley wells.

Drillers have struck Devonian limestone in the Pekisko field, the same formation from which large crude oil production is obtained in the United States.

The prince, who told westerners a "ranch" is one that pays and a "rawnech" one that does not, is the owner of 4,000 acres, 25 miles from High River, Alta.

An Unenviable Record

Jugo-Slav Thief Speedy In Getting Back To Prison

Josip Podkrajec, most famous of Zagreb pickpockets, has broken the Jugo-Slav record for speed in getting back to prison. Josip was released after serving two years in Lepoglava, Zagreb's famous prison. As he said goodbye to prison officials at the gates he could not resist the temptation to remove a silver watch from one of them. He was seen by another official, caught, taken to the local lock-up and the next day appeared again before a court. Within a few hours he was back in Lepoglava.

The director of the museums at Hull, England, traded a matchbox containing 12 rare moths to the British museum for a skeleton of a whale.

Balance Wheel Of World

Scandinavian Countries Are Setting Nations A Good Example

According to William S. Knudson, executive vice-president of the General Motors Corporation, Scandinavia is "the balance wheel of the world."

Certainly Sweden, Norway and Denmark are setting the world an example of countries keeping their heads on their shoulders and their feet on the ground, when all about them is strife and turmoil, upheaval and uncertainty.

They are not big countries. The combined area of the three is only about 315,000 square miles and their combined population not much more than 12,000,000. They're in latitudes that breed hardness and make men work for a living. There is nothing enervating about them.

The Scandinavian peoples are patriotic and liberty-loving. They are not easily swept off their feet by those who promise them the millennium. With crowns toppling all about them and dictators springing up, they have clung conservatively to their constitutional monarchies. They have been blessed by intelligent and sympathetic sovereigns.

The Scandinavians are clean living and honest. They believe in paying their debts and taxes. Although they inherit a tradition of war and adventure, they have put war out of their hearts and minds.

The Swedes, Norwegians and Danes have contributed some of the best blood that flows in English veins and today constitute one of the finest strains in our own population.

Countries do not have to be big to be great. —Detroit Free Press.

Although scientists know comparatively little about glowworms, it seems to be established that their light is generated in the act of breathing.

Way To Find Markets For Our Agricultural Products Is Through Wide Publicity

Educating Native Girls

Widow In Anchorage, Alaska, Has Adopted Seventh Child

A widow of many years, who had dedicated her life to aiding unfortunate children of the Far North, has taken steps to adopt her seventh native child.

Mrs. Corinne Call, of Eklutna, filed a petition with United States Commissioner Thomas C. Price for the adoption of an Alaskan, 10 years old. During her residence in Alaska, Mrs. Call, a native of Washington, D.C., has adopted six native girls, most of whom are now adults. Two are married, another is taking instruction in beauty culture in Seattle.

Their adopted mother has provided them with good educations, and two are in school at Eklutna. One is dead.

Most noted of her adopted children is Miss Melba Call, who has been blind since childhood. She is a teacher of blind native boys and girls at the Eklutna school, where Mrs. Call also is a teacher.

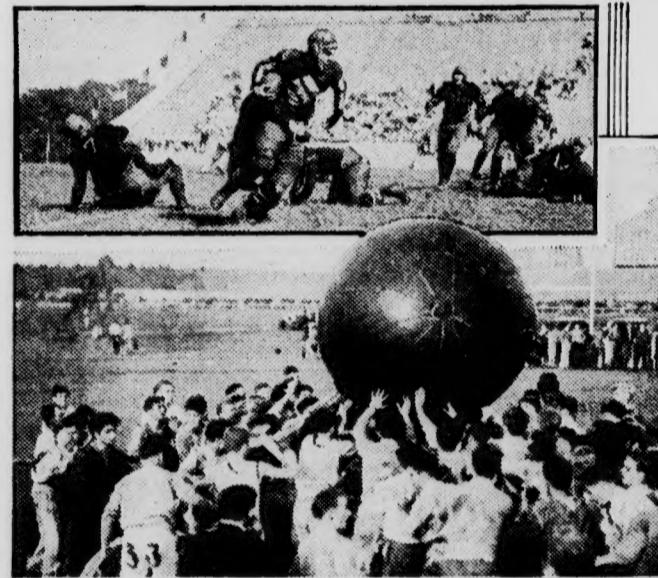

What Price Education

Joe worked as checker in a munitions plant. He learned one day, by interviewing the laborers whose truckloads of shells he tallied, that they got \$10 and time and a half overtime, while his wages were only \$5 a day. He then interviewed the foreman of his floor, asking to be reduced from checker to laborer.

"Can't do it," replied the foreman testily. "Why, you're the only man among 'em who can read and write."

The SNAPSHOT GUILD

School's Ahead. Snapshot When You Go.

In later years, when you are an alumnus, you will get your greatest enjoyment as you look back over the pictures you snapped at school.

With the opening of schools a new season arrives for snap-shooting and what a paradise for the boy or girl who owns a camera.

Whether you go to a little country school with one room or a great university your opportunity for snap-shooting is unlimited, providing you use your eyes and the proper amount of good judgment. Just as a newspaper reporter develops a "nose for news" just so you should develop an "eye for snapshots."

There are, of course, the obvious shots of the school building or buildings, as the case may be, and you will want them; but what about pictures of new classmates, teachers, old friends, baseball and football practice, the basketball team leaving for a game out of town and many other interesting story-telling pictures?

It doesn't make any difference what kind of a camera you have you can take pictures under certain conditions with a dollar box camera that, for record purposes, are about as good as those made with an expensive folding model.

Did you ever think of taking action pictures with a box camera? It can be done. Suppose you are sitting in the grandstand watching an exciting football or baseball game. You anticipate an exciting play — full of action. If the light is good and you are two hundred or more feet from the scene of action you will get your picture. At that distance, of course,

your images will be small but an enlargement of the point of interest in the snapshot will give you a picture you will be proud to show to your friends.

When taking action pictures with a box camera don't snap the picture while the subject is whizzing directly across your line of vision. Always shoot at an angle of approximately 45 degrees.

For those who are not familiar with diaphragm openings and shutter speeds let me explain that a box camera opened to its largest "stop," or lens opening, is comparable to approximately f.11 on a folding camera and the shutter works at approximately 1-25 of a second.

If you are fortunate enough to own a camera with a fast lens and shutter, that is a different story. Suppose, for instance, that your camera has an f.6.3 or f.4.5 lens with shutter speeds up to 1-300 of a second. You

are a fortunate person for you can get much closer to the scene of action. Open the diaphragm to its largest aperture, set your shutter speed at 1-100, 1-200 or 1-300, depending on the speed of the action and fire away.

In school you study and experiment to gain knowledge of your subject. The same system applies to snapshooting. Study your camera and experiment and you will find it will

pay you profitable dividends in interesting, story-telling pictures that you will enjoy looking at for years to come.

JOHN VAN GUILDER.

"I believe that the greatest objective of any province should be to find markets for its agricultural products through advertising and special articles in newspapers, the preparation of goods to attract attention, and favorable and efficient distribution and selling agencies." This declaration was made by Hon. Frank Carrel, M.L.C., President of the Quebec Chronicle-Telegraph, at a luncheon of the Canadian National Exhibition. It was "Canadian Press Day."

"As a journalist," he said, "I have never ceased to preach the doctrine that in our agricultural production we should not fail to appreciate that we must not only study the needs, even the whims and strange fancies of those to whom we want to sell, but we must also realize that our farm products must be advertised in the world today in the same manner as manufactured goods are advertised.

"Once we have satisfied ourselves that we can produce foodstuffs that are required in the world markets our next duty is to prepare the goods in the way our customers want them, and the third and most important of all is to let the world know what we have done and what we have to sell.

"How many people in the world know that Canadian wheat is of superior quality and is a necessary ingredient in order to make the best bread; that maple syrup used in place of sugar on our fruits, such as strawberries, raspberries, blueberries, etc., accentuates the flavor and the taste to a delicious degree; that there is soil in Western Canada that produces a peerless apricot; that the fish caught off the Gaspe coast have a special quality of flesh and a superior taste; that Ontario possesses a vast fertile fruit area, producing excellent grape for domestic wines; or that the fine soil of Canada from east to west makes it possible to boost successfully our agricultural products as being of exceptional quality, if we only use printers' ink to tell the story in the same way that we advertise our manufactured goods.

Mr. Carrel stressed the advantage of living within the British Empire, with every unit excelling in some agricultural or manufactured product, but all helping one another by their individual efforts to reach world fame for Empire products and Empire manufactured goods.

"If we can educate our people in the desired direction by setting such an objective before them," he said, "we shall fill the receptive minds of our youth with a commercial competitive spirit in a cause not only interesting and worth while but helpful to them as well.

"We cannot blame our youth for losing their grip on things unless we take the time to arouse their ambition and enthusiasm to become interested in making a farm pay.

"There never was a better time to do this than the present, with five Canadian Provinces under farm Premiers.

"Let us induce our boys to be as enthusiastic over a farm and the raising of agricultural products as they are now over sports and we shall be assisting them to obtain employment and achieve greater progress towards commercial recovery."

Meat Exportation

Chief Purchaser In July Was United States

The exportation of meats from Canada in July was of the value of \$2,114,758 compared with \$2,146,958 in June and \$1,944,969 in July, 1934. The amount to the United Kingdom alone was \$1,903,786.

Bacon and hams accounted for \$1,816,553, the amount to the United Kingdom being \$1,800,669. The bacon export was slightly less than a year ago, and so was mutton and lamb at \$2,552, but fresh beef at \$59,582 continued its recent rise, the chief purchasers being the United States with \$28,987, Newfoundland with \$12,255 and the United Kingdom with \$11,244.

"How much money would a man need to marry you, Emma?"

"Come, now, Hattie, you know what a marriage license costs."

Items of Interest

The construction of a \$25,000
breakwater, as a federal relief project,
with a pile and cribwork approach,
will be commenced at once
at Sylvan Lake. Announcement of
the project was made Friday evening
by W. J. Botterill, of Red Deer, at a
Conservative meeting held in the
interests of A. Stewart, of Bowden,
candidate. The construction work
on the breakwater would have com-
menced earlier, but it was requested
by the department of public works
not to start operations during the
holiday season at the Lake. Tenders
for the work will close in two weeks.

William Anderson, deputy minister
of trade and industry, resigned
Tuesday at the request of the provincial
government. This is the fourth
resignation since the new govern-
ment assumed office, the others
being W. Calder, director of petro-
leum and gas division; Alex Ross,
chairman of workmen's compensation
board, and Fred Smailes, civil
service commissioner.

Almost 900 candidates, all but a
scattered few from five major parties,
will contest the 245 seats in Canada's
House of Commons on October 14.
It will be the greatest multi-sided
struggle for parliamentary suprem-
acy between parties in Canadian
political history. Not more than
644 candidates ever sought election
before in a federal general election,
and that was in 1921.

The town of Slave Lake, harassed
by flood conditions from Lesser
Slave Lake for the past two years,
is to be re-located about two miles
south of the old townsite, near
Slave Lake station on the Northern
Alberta Railways.

A townsite has been purchased
and provincial government engi-
neers have started to lay out the
townsite in accordance with the
Town Planning Act.

To Be Superannuated.

Superannuation of all government
employees, both male and female,
at the required age, will be carried
out according to provisions of the
enabling legislation. It is expected
that 32 employees will be affected
by this move of the Social Credit
government.

The superannuation age for men
is 65 years, and women 60. The
order may affect J. D. Hunt, K. C.,
chief electoral officer, while another
is W. D. Spence, chairman of the
Alberta assessment commission. The
new government is carrying out a
reorganization policy with a view to
consolidating various features of
work and eliminating overlapping
services, also to increase efficiency
and decrease administration costs.

Evangelical Church Notes

The sermon subject next Sunday
morning will be, "The gospel com-
mitted to our trust." In the evening
the pastor will bring a message of
special interest to the young people,
entitled, "The necessary foundation
for a successful life."

**49 Candidates
for 13 Seats**

A total of 49 candidates were
nominated Monday to contest the
13 rural federal constituencies in
Alberta, assuring eight 4 cornered
battles and 5 3 cornered fights.

Advance nominations were held
Monday in the province in all but the
two Calgary and Edmonton rid-
ings, where nominations will close
next Monday for the general election
October 14.

According to unofficial reports
Liberals and Social Credit had named
candidates in every riding, while the
C.C.F.-U.F.A. alliance had entered
11 contestants. Conservatives
placed 10 nominees in the field.

Candidates nominated for the Red
Deer constituency were:

George Clark, Eagle Hill, Liberal;
Eric Poole, Olds, Social Credit;
Alfred Speakman, Red Deer, U.F.A.;
and Arthur Stewart, Bowden, Con-
servative.

**Notice to Relatives of Persons
On the Assessment Roll
And to Tenants**

Notice is hereby given that during
the months of September and
October, applications may be made
under the provision of section 188
of the Town and Village Act for
inclusion in the voters' list of the
town of Didsbury by the following
persons, namely:

The wife, husband, father and
mother and every son and daughter
of any person whose name appears
on the assessment roll who are en-
titled to be placed upon the said
list—

(a) if he or she is resident with
the said person within the town or
assists in a business in respect of
which he is taxable; and

(b) if he or she is of the full age
of twenty-one years; and

(c) if his or her name does not
already appear on the roll;

Tenants who have rented an
assessed parcel for a period of
twelve months immediately preced-
ing the last day of August of this
year.

Doings of Our Neighbors

AT INNISFAIL: The foundations of the Cenotaph having been completed some weeks ago now having set, the work of building the main shaft was started by Mr. Kizman, builder and contractor of Sylvan Lake. The accepted design for the Cenotaph was the work of Mr. John F. D. Tanqueray, Captain, D.F.C., M.T.P.I.C., also of Sylvan Lake.

The Little Red Deer Game Sanctuary was officially opened Sunday, September 22. The occasion was marked by the releasing of a pair of pheasants by Mrs. S. A. Fox, wife of Mayor Fox of Innisfail. These birds were the gift of Mr. George Pickering, of the Inglewood Bird Sanctuary, Calgary. In addition to the pheasants more than 70 game birds, the gift of the National Homing Club of Calgary, were also released.

AT BOWDEN: A farmer moving a granary out of Bowden across the CPR crossing there Monday forenoon failed to get it clear across when the chain broke, leaving one corner still on the right-of-way. The north-bound train coming around the sharp bend took the corner away with it, the train being delayed 25 minutes and leaving the granary with only three corners.

AT THREE HILLS: A. Sheline, resident of Three Hills for the last 24 years and well-known auctioneer, is leaving town this week to make his headquarters at Calgary.

"Redheads On Parade."

"Redheads On Parade," which appears at the Opera House on Saturday, is one of the latest pictures, having only been released in July.

In this production there seems to be a well fused combination of story, personnel, and production and potential entertainment values that make for colorful exploitation and showmanship. The story, primarily romantic, moves to a tune of laugh-provoking comedy, music, dancing and fast action. Its lavish backgrounds are typical of a modern Hollywood motion picture studio and an ultra-modern beauty shop. As can easily be understood from its title, many spectacular sequences of featuring a host of beautiful girls materially add to its gay atmosphere.

John Boles, who has the lead, not only sings several numbers, but also will be seen in several solo dances. Sharing the lead is Dixie Lee (Mrs. Bing Crosby), who recently resumed her screen career. Also to be seen is Jack Haley, New York stage star, who, after appearing in a couple of pictures, went back to the stage, only to return to pictures again.

There are 48 "redheads" in the parade, one picked from each of the 48 states.

Appointments for Gov't. Officers

Appointments of two Calgary residents to high office in the Alberta civil service were announced Friday by Premier William Aberhart.

Dr. Victor W. Wright has been appointed chairman of the Workmen's Compensation Board, succeeding Alex Ross, who resigned at the premier's request. The office carries with it a salary of \$6,000 a year, which amounts to around \$5,000 after allowing for statutory deductions. Dr. Wright will have a 10-year contract.

The other appointment is that of A. L. Sweeney as civil service commissioner, succeeding Fred Smailes, who also resigned at the premier's request.

Mr. Sweeney, of 316 Eighteenth Ave. W., born in Ireland, has been in Canada for a number of years, having been employed for some time with the Canadian Pacific Railway Commissary department at Calgary. He has farm interests in Shepard district, and has been connected with the grain business for some time.

Essay Contest

The Wildfire Coal Co. and their distributors are conducting an essay contest for all school children in the province. The subject is "why we use Wildfire Coal in our home." A number of prizes including CCM bicycle, 22 rifle and watches, etc. will be awarded. Free scribblers and particulars can be got from the Atlas Lumber Co.

WEEKLY JOKE

The portrait painter approached the old villager and offered him some money if he would allow him to paint his features. Old Ben hesitated and then shook his head. "It's money easily earned," prompted the artist. "Oi know that, zur," replied Ben, thoughtfully stroking his whiskers. "But Oi wuz just a thinkin' as how I should get the paint off afterwards."

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Breakwater, Sylvan Lake, Alta." will be received until 12 o'clock noon, Monday, October 14, 1935, for the construction of breakwater (with pile and cribwork approach) at Sylvan Lake, Alta.

Plans, form of contract and specification can be seen and forms of tender obtained at the office of the Chief Engineer, Department of Public Works, Ottawa, at the offices of the District Engineer, Customs Building, Winnipeg, Man.; Winnipeg Builders Exchange, 612, Confederation Life Bldg., Winnipeg, Man.; also at the Post Offices at Sylvan Lake, Alta., Red Deer, Alta., Calgary, Alta., and Edmonton, Alta.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque if required to make up an odd amount.

NOTE.—The Department will supply blue prints and specification of the work on deposit of a sum of \$20.00, in the form of a certified bank cheque payable to the order of the Minister of Public Works. The deposit will be released on return of the blue prints and specification within a month from the date of reception of tenders. If not returned within that period the deposit will be forfeited.

By order,
N. DESJARDINS,
Secretary,
Department of Public Works,
Ottawa, September 23, 1935.

British Educationists Tour Canada

In Canada for a seven weeks tour as guests of the National Council of Education, twelve British Directors of Education are at present touring the Dominion. The visit has been arranged to celebrate the 25th Anniversary of the Overseas Education League, which organizes annual visits of Canadian students and teachers to Great Britain, and is a return of the hospitality extended by British educators to the Canadian visitors.

The British group arrived at Quebec in the Canadian Pacific liner "Empress of Australia", September 4, and their spokesman stated they hoped to "learn quite a bit while in Canada". Photograph shows commencement of the educational process with

Packed full of uncrushed sultanas, that's the secret of their tempting flavor. Christie's Sultanas are always exceptionally crisp and fresh.

Christie's Biscuits

"There's a Christie Biscuit for every taste"

WORLD HAPPENINGS BRIEFLY TOLD

A television broadcasting tower is being built on top of the Eiffel Tower and is expected to provide regular service after three months' testing.

To investigate possibilities of Swiss farmers with capital settling in Canada, a delegation from Switzerland arrived in Montreal recently aboard the liner Montcalm.

The Japanese government authorized diplomatic action at Shanghai against the magazine China, weekly review published by John B. Powell, an American, because of an article allegedly insulting Emperor Hirohito.

"Himmel," a Doberman Pinscher, owned and entered by Rudy Vallee, famous orchestra leader, won four first prizes at the 47th international dog show at the Canadian National exhibition, including a prize for the best dog of the breed.

Apparently tired of goat's milk and fruit, on which he has lived for years, M. K. Gandhi is trying out a new diet. He is experimenting with leafy vegetables and says he feels very fit as a result.

Main terminus for Britain's international commercial skyways, Croydon aerodrome accommodation is being increased to handle more than 20,000 passengers and 500 tons of freight and mail monthly.

Mass protest against a tuition fee increase of 25 per cent. which will be introduced this year is being contemplated by University of Toronto students, it was learned. Medical students, facing a \$75 higher fee, are said to be solidly behind the movement.

Dr. L. J. Simpson, Ontario minister of education, announced all students wishing to attend normal schools this fall would be subjected to a thorough medical examination and only the physically fit would be allowed to enter. It was the first step in a movement to reduce the over-supply of teachers in the province.

Miners' Strike Threatened

British Miners Are Dissatisfied With Wages And Working Conditions

A national miners' strike will be declared in Great Britain if demands for higher wages and better working conditions are not met. Ebenezer Edwards, secretary of the Miners' Federation, declared in a manifesto in London. The manifesto asked the public to help the miners to avoid a crisis.

"The hour has struck," it said. "After years of patient submission to conditions fit for slaves, the miners have decided to enforce their demands for the payment of reasonable wages. Their wages are a shame for a civilized community."

No one knows when coal was first used for fuel.

Motor Cars In Germany

Per Capita Distribution Is One To Every 75 Persons

Although Germany in the early days of the industry was an important producer of automobiles, and still produces and exports far more than Canada, it has fewer motor vehicles in use by a couple of hundred thousand than this country. According to Paul Sykes, Canadian trade commissioner in Hamburg, a survey showed 866,000 passenger and commercial motor vehicles in use throughout Germany in 1934. The per capita distribution was on a basis of one to every 75 persons. In Canada it is about one to nine persons, and in the United States about one to five.

Germany would therefore appear to be a long way from the saturation point, and a wonderful market for cars is awaiting manufacturers at home or abroad. Evidently it will be for German manufacturers, and they ought to do pretty well out of it, under the trade regulations set up. In Canada we think the tariff pretty high, but Mr. Sykes summarizes the German situation as follows:

"The import duty amounts, in the case of a medium-weight car of whatever price, to from \$400 to \$600 (Canadian currency) per unit. Also, it has now become difficult, and at times impossible, for importers or agents to obtain import permits or to complete payment for such purchases of foreign goods."

Canada's representative at the annual meeting of the American Veterinary Medical Association, held in Oklahoma City from August 27 to 30, 1935, was Dr. A. E. Cameron, Chief Veterinary Inspector, Health of Animals Branch, Dominion Department of Agriculture. He is the representative for the Dominion on the Executive Board.

More vitamin B to maintain health is required by men than by women.

Recipes For This Week

(By Betty Barclay)

CREAM DESSERTS

Bavarian Cream

1 tablespoon granulated gelatine
1/4 cup cold water
1/3 cup sugar
2 egg yolks
1 cup hot milk
2 egg whites
1 cup whipping cream
1 teaspoon vanilla
Pinch of salt.

Soak gelatine in cold water. Beat egg yolks and combine with sugar and salt. Gradually add the hot milk and cook in top of double boiler, stirring constantly until mixture thickens. Add gelatine. Cool, and when mixture is partially set, fold in stiffly beaten eggs, whipped cream, and vanilla. Pour into a mold or pile in sherbet glasses. Garnish with fresh fruit in season.

POMPADOUR RICE

1 1/2 cups cooked rice
3 tablespoons fruit sugar
1 teaspoon vanilla
1 cup whipping cream
Pinch of salt.

Combine rice, sugar, salt and vanilla. Whip cream and fold into rice. Serve with maple syrup cooked until thick. Sprinkle with chopped nuts.

Civil Aviation Covers China

Length Of Airlines Now Totals Over 7,625 Miles

Civil aviation is gaining so rapidly in China that every province, excepting Kewichow and Yunnan, has some definite airline crossings, and even these will soon be reached through regular service. The total length of airlines is over 7,625 miles, according to the Ministry of Communications. Before the end of this year the China National Aviation Corporation expects to complete its entire new equipment program providing the latest and most improved type of equipment for all divisions. The company also plans to make a feature of excursion flights from Peiping over the Great Wall, the Ming Tombs and the Summer Palace with a new commercial transport plane.

Health Probe

Appointment Of Commission Will Be Made This Fall

Action in regard to appointment of the royal commission on health approved some months ago at the Dominion-provincial health conference held in Ottawa will not be taken until the fall, Col. the Hon. D. M. Sutherland, minister of national health, said. The whole subject was one of such extreme importance that it could not be rushed, the minister added.

Much preliminary work had to be done in the way of consulting the various interests involved—doctors, nurses, dentists, druggists, labor, agricultural and financial. These, said the minister, will have to be co-related in order to get "preliminary action" before definite steps towards instituting the inquiry can be made.

Resort To Old Remedy

Natives Of Trinidad Still Use Leeches As Cure

The judge of the workmen's compensation court at Port of Spain, Trinidad, was surprised to hear that natives of this British island colony still resorted to the old-time remedy of using leeches to cure an injured person by bleeding.

But H. Hudson Phillips, barrister-at-law who was arguing the case, was not surprised and told the court so.

"There is a roaring trade between Martinique, Guadeloupe and Trinidad with leeches," he said. "They are procured from the rivers of the French colonies. They are fed on charcoal and sold in the eastern market here."

Keeps Eye On Speed

Although the royal chauffeur rarely steps on the gas when driving his monarch around, King George V. nevertheless has a duplicate speedometer built in the back of all his cars so he can keep a cautious eye on their speed.

PATTERN 5156

Don't long for heirlooms—make them yourself! Just by repeating this simple crocheted square you can make a bedspread that will be a priceless joy to yourself, and the prized possession of your children. The popcorns in this design are worked on a mesh crochet, giving them added contrast as well as speeding up the work a bit. You can make a lovely cushion of it, too, the richness of the design making it especially suited for this.

In pattern 5156 you will find detailed instructions and material requirements for crocheting the medallion and joining it to make a variety of articles.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

CHAPTER XVI.

March "came in like a lamb," and continued lamb-like for so long that Nancy hung her fur coat at the very back of her closet, and concluded that spring had come. It was on one of these rare days when Aurora, deep in an orgy of housecleaning, ordered the girl emphatically to "clear out," that Nancy decided to test the woodland trail to the hilltop where she had gone with Matthew three months before; and reaching the summit, dropped breathless at the foot of the old pine.

She had wanted to go out to the Adam ranch that morning, but it was "library day," and Mary Taylor, who would have taken her place behind the desk, was visiting in Pueblo. There was nothing to do but stay at home, and this was the sort of weather that made one long to "go somewhere"—surely too fine a day to remain indoors. So here she was, gazing off at that marvelous picture, with Pike's Peak looking only about a mile away; and at her feet a clump of Colorado anemones like those Matt had brought her from the ranch last week. Nancy wished that Aunt Judy, who so loved flowers, was here to see them.

Suddenly it struck the girl as unbelievable that she should be two thousand miles from home, alone on a hilltop under a pine that had (as Matthew Adam pointed out), viewed things that were part of the history of her country. If only this wonderful old tree could talk! Why, it had stood here in silence and watched that Indian and his boy approach the lonely cabin where a small Colorado Columbine was rapturously enjoying her first Christmas tree! Did it tug at its sturdy roots in an effort to send forth a warning? mused Nancy whimsically; and then said aloud:

"But I'd never have had these thoughts if Matt hadn't put them into my head, perhaps. He's a queer boy—Matt Adam—so awfully shy most of the time, and such a riot when he forgets himself. I never

saw any one just like him. Mark's bright as a dollar, and one can have perfectly grand times with him; but there are days when I like his brother even more. Somehow Matt makes you want to protect him, he's so sensitive. And in that Tux the night of my—"

Nance started, blushing as red as ever the approaching Matthew had. He smiled and apologized: "Sorry I scared you. Thought maybe you saw the truck bumping along the road down there. I caught a glimpse of an orange tam and made a guess that you'd be under it. Mother wants you for supper; and Dad has promised to fry chickens if you'll come."

"Does the invitation include Cousin Columbine?" asked Nancy as the young man dropped to the ground beside her.

"Of course. You can ride back with Luke when he gets the milk cans this afternoon."

"That's grand," smiled Nance. "How did your mother know that I was crazy to go out to the ranch today?"

"She didn't. It's a farewell banquet for yours truly. I'm swapping jobs with Mark to-morrow. Uncle Tom needs some one a while longer, and Mark is fit to tie at missing so much of your society. He called Mother up this morning with a pathetic story which she fell for instantly, and proceeded to point out the fact that it was my duty to relieve him. Jack's going to drive me to Prairie Ranch to-morrow, and come home with Mark. I hope to thunder I'll be back in another week."

"I hope so too," returned Nance sweetly; "but it's been wonderful for Jack, having this chance of stay with you people. I didn't dream your uncle would be laid up so long."

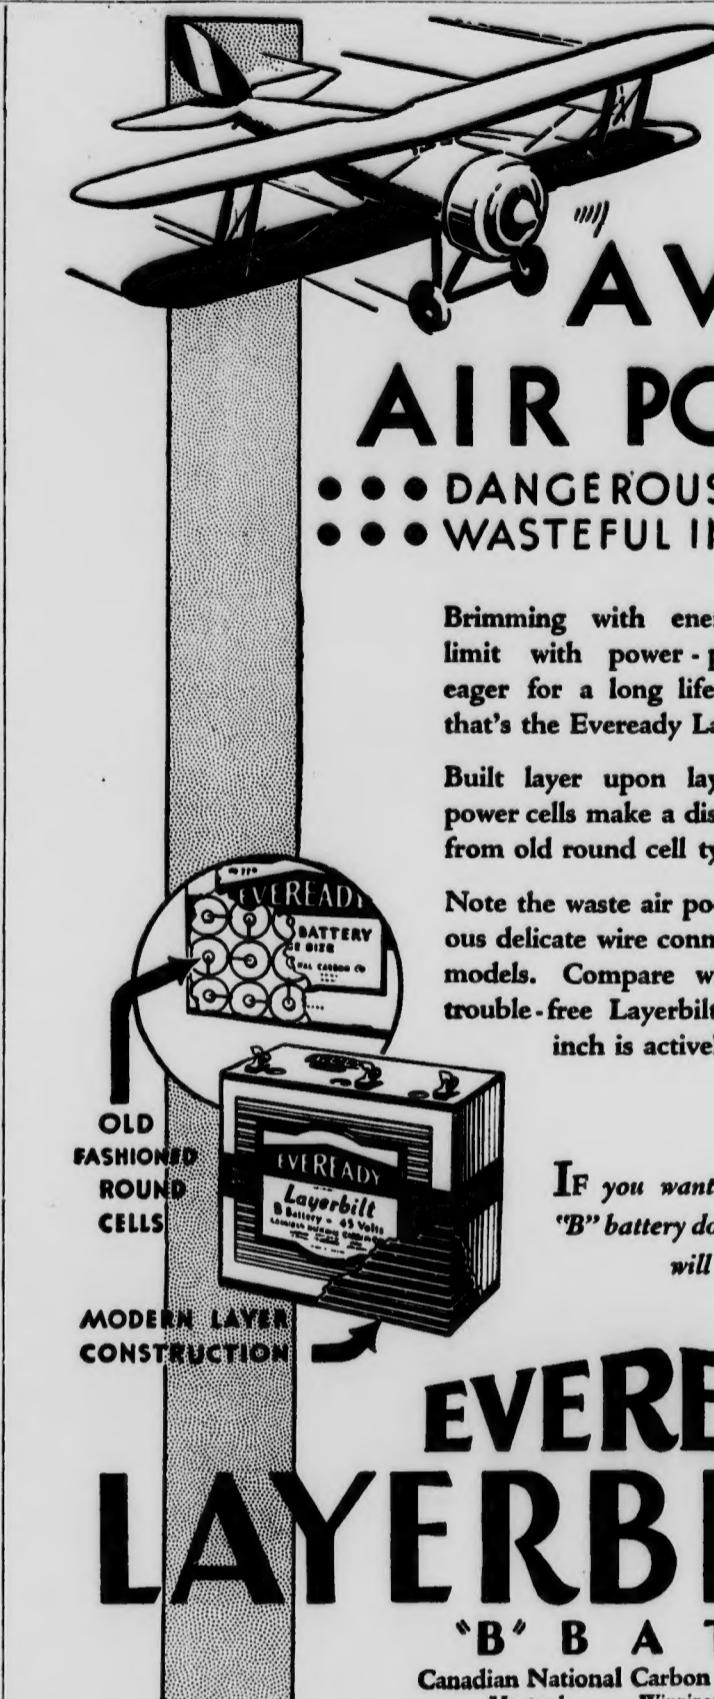

"Neither did Mark," laughed Matthew, "or it would have required even more persuasion to make him go! But it was Uncle Tom who fixed things so Dad and Mother could marry when they did, and they'd lend him anything from their sons to their last copper. Say, Nancy, have—have you decided when you're going East?"

"I wrote Dad yesterday that I thought we ought to stay till June. There are such a lot of things we want to see, Matt; and goodness knows if we'll ever come again."

"Of course you will! What makes you say a thing like that? Why—why if I thought . . ."

He didn't finish the sentence; and Nance said demurely: "It's nice of you to want us to return! And we're going to miss you Adams a whole lot. That's straight, Matt. Yet I can't help wondering if when we once get home again this—well, the whole experience, won't seem almost like a dream. If you knew how I dreaded to come! I was scared out of my senses. You've no idea what an awful coward I am."

"Was, perhaps," Matthew corrected gravely.

AVOID AIR POCKETS

• • • DANGEROUS IN FLYING
• • • WASTEFUL IN BATTERIES

Brimming with energy, packed to the limit with power-producing materials, eager for a long life of active service—that's the Eveready Layerbilt.

Built layer upon layer, these flat extra-power cells make a distinct modern advance from old round cell types.

Note the waste air pockets and the numerous delicate wire connections in yesterday's models. Compare with today's compact trouble-free Layerbilt where every cubic inch is actively engaged.

IF you want the utmost for your "B" battery dollar, only the Layerbilt will satisfy you.

EVEREADY LAYERBILT

"B" BATTERY

Canadian National Carbon Co. Limited, Toronto
Montreal Winnipeg Vancouver

Nance threw him a little smile; then her face sobered.

"I'm not so sure the past tense is correct, Matt. Sometimes I think my courage has never been tested, and wonder how I'd show up in a pinch. It was pride that made me

consent to come out here—that is, mostly pride. I wanted to help Dad, of course. We all did. But I'd never have come alone, Matt. I'm no heroine."

"I beg to disagree with you, lady. Jack says you never whimpered at giving up that glorious debut."

The girl raised her head in sheer surprise.

"He did?"

Matthew nodded.

"Your kid brother thinks the world of you, Nancy. Didn't you know it?"

Nance pondered that.

"I knew Jack was fond of me, of course; but when I hesitated about coming to Colorado he—he called me a parlor ornament, and—"

Matt laughed, his eyes shining as his mother's had when Nance first saw her.

"What's the disgrace in being ornamental so long as you're something else besides? Look at our library, Miss Aladdin! Honestly, Nance, Dad says he doesn't know any one who's accomplished so much in a short time as you have. And you've practically transformed Juanita Tubbs! Aren't you aware that she copies everything about you, from your Boston accent to the way you wear your clothes? She confided in Mother that she'd dyed that awful green dress dark blue."

Nance laughed as she rose.

"That gown was an outrage, and if I'm accountable for its transformation Pine Ridge owes me a vote of thanks." Her eyes were shining now, and the dimple made its elusive appearance for a moment. "Come on home with me, Matt, and I'll smuggle you an apple turnover."

(To Be Continued)

Ayrshire Breeders' Association

Reports Received On Milking And Butter Fat Records

Reports have been received by the Canadian Ayrshire Breeders' association on the milking and butter fat records of 147 cows and heifers, it was announced at Toronto.

Leaders included:

Two-year-old class—Fintry Iris, owned by Capt. J. D. Dunwaters, Fintry, B.C., 12,594 pounds milk, 534 pounds fat, average test, 4.25 per cent. fat.

The Measure Of Success

Is Ability To Keep On When Every One Turns Back

On every hand we see people who have turned back, people who had pluck enough to begin things with enthusiasm, but did not have grit enough to carry them to a finish. The point at which you are tempted to turn back, the point when your grit leaves you, will measure your achievement power. Your ability to go on, to continue after everybody else has turned back, is a good measure of your possible success.

Oil from a wild cucumber is believed to have been used by western Indians in paint which has withstood exposure for 150 years.

Fine percheron stallions, smartly groomed cavalry chargers of the mounted police, racing and pacing horses and mounts trained in jumping and for the hunting field mingle at the village of Montebello, P.Q., on the north shore of the Ottawa, for the annual Seigniory Club Horse Show this summer during August 15-18, Thursday to Sunday. A musical ride will be put on by the Royal Canadian Mounted Police. The event is under the patronage of His Excellency the Governor-General and Canadian and American society folks are expected in large numbers.

Enjoying a short stay at the Banff Springs Hotel on his way to taking up his post in London, His Excellency T. Matsudaira, Japanese Ambassador to Great Britain, stated to an interviewer, "I prefer just to enjoy myself and to forget for a few hours that there are more arduous duties than the contemplation of this lovely place."

Addressing a gathering of the Rotary Club of Victoria at the Empress Hotel, recently, Premier Joseph A. Lyons, of Australia, pointed to the British Empire as a great force for peace and urged Canada to cultivate a more favorable trade with his own country. Last year, he said, Australia bought from Canada \$18,000,000 worth of goods, while Canada bought from Australia only \$6,000,000 worth.

The Algonquin Hotel, St. Andrews-by-the-Sea, New Brunswick, opened for the summer season at the end of June, and is now the centre of much holiday activity. Their Excellencies the Governor-General and Lady Bessborough were among the guests and the famous Katy's Cove bathing beach is again as in former years very popular with the children and the younger set.

With the increasing popularity of vacation trips on the Great Lakes, the Canadian Pacific has expanded its Great Lakes steamship service to include calls at Port Arthur on westbound voyages as well as eastbound. These ships have been outfitted with deck sports, including quoits, shuffleboard and deck golf. Dancing and music bring pleasure to the evening hours. The schedule makes it possible to take an enjoyable week's trip going either way with overnight stops at both ends, Port McNicoll and Fort William.
